

News Release – April 2009

New Business Ambassador for EBP

Lets Go for Growth are delighted to be invited to join EBP Portsmouth as Business Ambassadors. The work that EBP do is invaluable in bringing schools and employers closer together and in delivering a variety of programmes that help raise the aspirations of young people and prepare them for the world of work.

So far this year we have delivered an interactive workshop, looking at the importance of professional telephone skills in the workplace. We recently also participated in a 'Mock Interview Day' at a local school, giving 14 and 15 year olds an opportunity to practice their job interview techniques and receive constructive feedback. It's a privilege to be able to encourage the development of our future business talent and we are looking forward to getting involved with further EBP events very soon.
